ABSTRACTS FROM MISSISSIPPI DAR APPLICATION RECORDS

The following abstracts were taken from information compiled by the Mississippi Daughters of the American Revolution from chapter files of application papers submitted for NSDAR membership in the Mississippi Society. It was published in a revised and updated form in 1979. The listing shows the ancestor's last name first, followed by his/her given name, rank and state from which he served, the date and place of birth, death and marriage, where known; the name of spouse, and any dates of children with any identifying information in connection with the children of the ancestor.

These abstracts were selected from entries that refer to a South Carolina connection for service, birth, marriage or death. It may be important to remember that many families passed through South Carolina in a migration pattern extending from Pennsylvania to Texas. Many of the families may have lived in South Carolina only a short while, but they may have left parents, children, brothers or sisters in the area; these connections may assist current researchers in piecing together family groups that became separated in the "western migration."

To follow up on information in these abstracts, please refer to the latest edition of the NSDAR Patriot Index, and to original papers filed with NSDAR in Washington for documentation references:
