

# A Typical Griffin Day: After School

After a long day of school work, it is a time to exhale and chat with friends. Students can be seen in the parking lot and in front of the school discussing the days events and what they will be doing that evening. Senior Tameka Pauling says, "I like to socialize with my friends and go to club meetings. After school I also go to work." There are also many after school activities that keep students occupied, such as band, student government, sports, yearbook, and jobs. Many students are seen trailing off to Sonic, Bi-Lo, Wal-Mart, and Captain's Galley to make some extra money.
