

in Time

As the water gleamed from the waterfalls, and the stars sparkled on the walls, anxious students arrived and were completely mesmerized by the gymnasium's beauty. Indeed they knew this would be "One Moment In Time" they would surely remember. For some it was a night of romance and love; for others it was a time to have fun with their friends. As the music played, students began to make their way to the dance floor. Some danced with their dates, while others danced in large groups. Slow dances were also shared among many. Everyone seemed to be enjoying themselves. Sadly, the night did have to end. For seniors it was one of the last times to have that special dance with their high school sweetheart and to fellowship with friends.
