

# Cafeteria & Custodial Staff

Although the Cafeteria and Custodial staff's job may seem easy to some it is not at all. The Cafeteria staff must prepare lunch for over 500 students each day. They also open a store, The Canteen, in order to sell snacks and drinks to those students who do not eat the regular prepared lunch. Breakfast is also available to those who are unable to eat before coming to school.

The Custodial Staff are the first ones to arrive to school and the last ones to leave. Their service to school provides students and teachers with a clean and friendly work and learning environment. They are constantly seen picking up trash in front of the school and around the parking area, sweeping and vacuuming the concourse, and cleaning up after students who leave their trash on the cafeteria tables. They are often under-appreciated, however the school day would not run smoothly without all of their hard work.
