

New Teachers

Fairfield Central High School welcomes all of its new faculty, including some of its very own graduates. Mr. Hare and Ms. Harrison, new teachers for the 1999-2000 school year are graduates of Fairfield Central High School. Mr. Hare teaches English, while Ms. Harrison teaches Mathematics. The new science teachers are Ms. Cook and Mr. Shaw. Ms. Cook is the advisor of the Science club, and Coach Shaw helps with the Mighty Griffin football team. Mr. Hollis, Mr. Murray, Ms. Hill, and Mr. Tayadon are a welcomed addition to the mathematics department. Along with Mr. Hare, the English department has greatly appreciated the services of Mrs. S. Jones and Ms. Thomas, who came in the middle of the first nine weeks. Ms. Brown, the new French teacher, is also welcomed by the Foreign language department. Coach Gilmer and Coach Bennett both teach physical education and health. Both are head coaches--Coach Gilmer has the varsity boy's basketball team and Bennett has the volleyball team.

Mrs. Hope, who replaced Mrs. Green as a computer and technology teacher, comes to Fairfield Central from Rock Hill. When asked about how she feels about the school, Hope replied, "Fairfield Central is a great school with lots of administrator, staff, student and community support." Judging by Mrs. Hope's comments, the school has all the ingredients for a good recipe. Mrs. Hope feels blessed and grateful about working at Fairfield Central because she is able to work in the area in which she was trained.
