SGA, Student Government Association, is a wonderful association; it allows the students to get involved with their school, even if they are not elected into office. To become a member in student government, you can either be elected or show up and be a representative for the school. The student government does a variety of different things for the community such as holds can food drives, have visits to sick children in the Cancer Center and the Children's Life Center, participates in the March of Dimes and the Red Cross Blood Drive. Student government not only does things for their community but also sponsors activities within the school; the activities range from Home Coming to The Gold Star Prom. Student Government is very prosperous and generous organization and teaches many values a student needs later in life.

Student Government Association president Kevin Johnson presides over a meeting while senior class president Tamekia Bell listens attentively.
