The Interact Club is a club for students in secondary schools. The Interact Club carries out two service projects yearly, one that serves the community and on that furthers international understanding. Interact clubs are sponsored by a Rotary Club. The Rotary Club provides constant mentoring, offering guidance and support. The Interact Club forms a partnership with the Rotarians, often helping the Rotary Club with their projects as well.

The Interact Club has a variety of projects every year. One of the projects they did was "Trick or Canning", where students ventured out into the community to collect non-perishable items for donation. The Interact Club also assisted with the Mothers Against Drunk Drivers' "Red Ribbon" campaign. Santa and Easter trains was another project with which they were assisting.
