

Reading Club

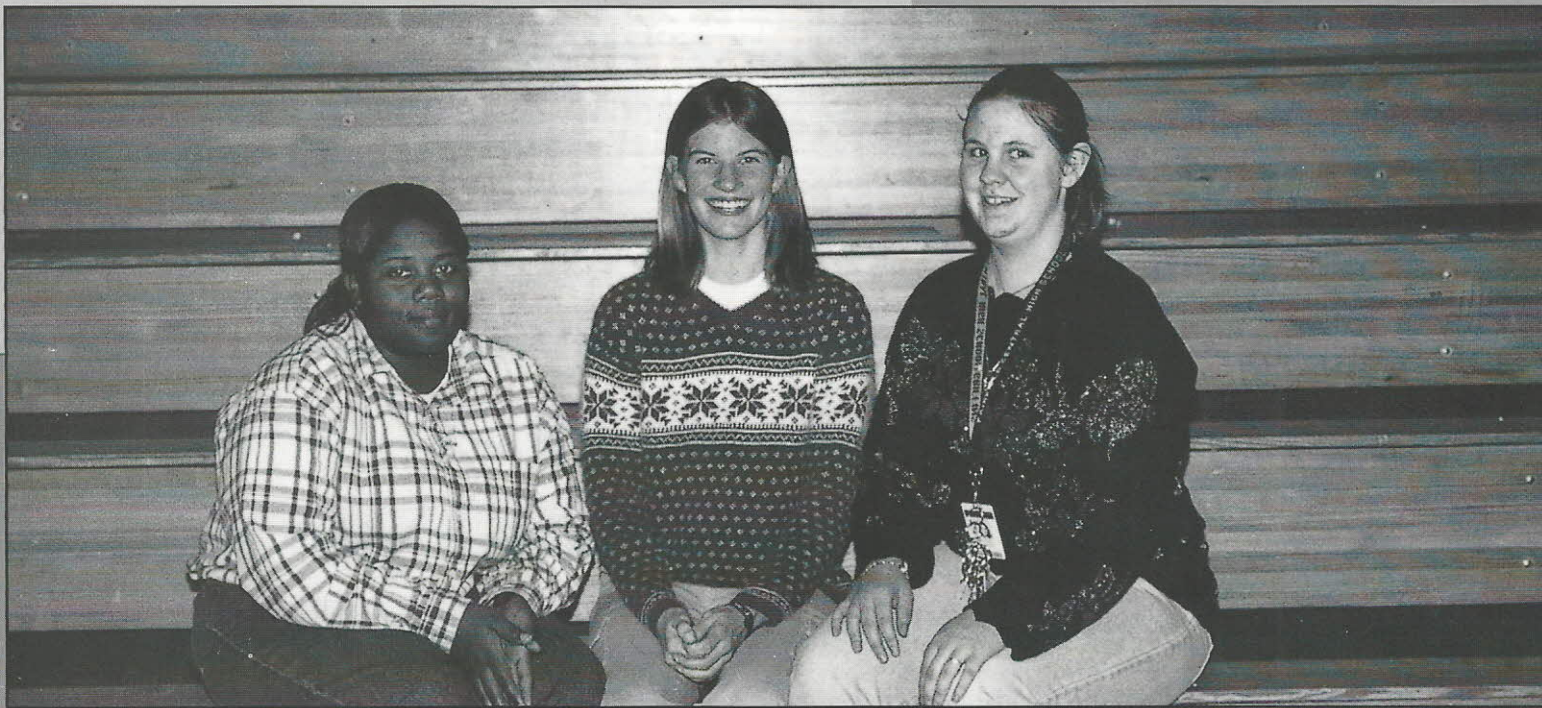

The Reading Club is a small club for students interested in reading. The purpose of the club is to encourage more students to read outside of their schoolwork. The club serves as a reason for students to meet and select books to read, usually novels. When they are all finished reading the novels, they gather for a group discussion. The first novel read by the group this year was *To Kill a Mocking Bird*.

The club has plans to support reading in other schools by having book drives throughout the year. The books they receive from these drives will be given to elementary school children throughout the district and community. Overall, the Reading Club is a wonderful club for students to join for reading and community service.

Tameka Gray

Above: Keisha Cook takes some time during the day for reading. The Reading Club promotes reading on all levels.
