Above: Beta Club member explains an assignment to a fellow student in Mr. Martin's class.

The National Beta Club Organization has been around since Winnsboro High in the 1930's. This year the club had three directors: Mrs. Donna Boulware, Mrs. CB Smith, and Mrs. Leola Woodard. The Beta Club honored and recognized all academically talented students who had earned no lower than a 3.0 GPA and grades of A's, B's and limited C's since their eight grade.

This year the Beta Club was made up of about 80 members. The main privilege of being in the Beta Club is that during graduation the member is honored by a sash worn around the neck to represent their academic achievements throughout their years of high school.

Beta Club members are known for more than just academics. This year the Beta Club participated in two service projects: the Good Samaritan House and the Muscular Dystrophy Drive.
