

# Media Center

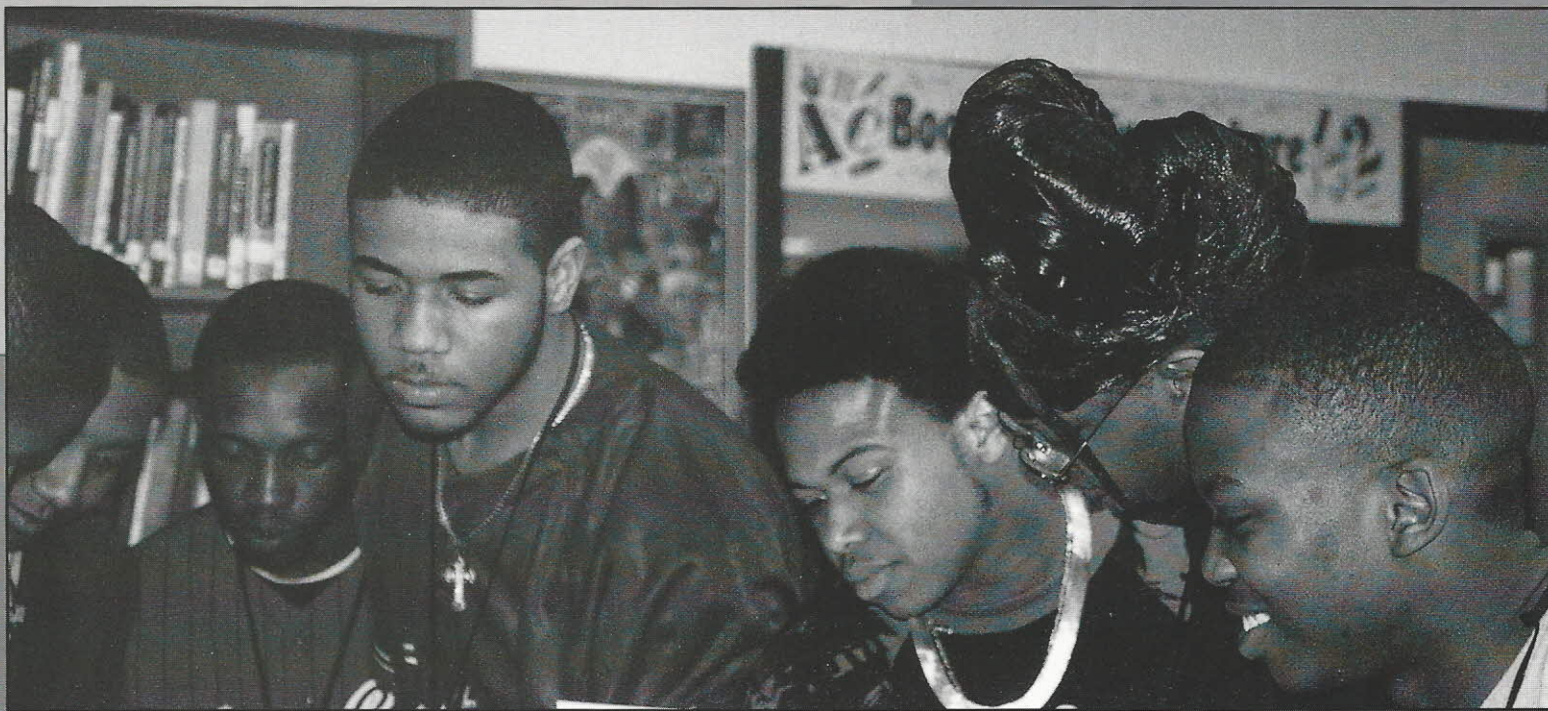

Mrs. Beale and Mrs. Pickett are very much interested in the students opinions about their favorite authors and magazines to encourage more students to take any spare time that they can to visit the media center. They both assist the students and staff the best way that they can with any material that they can provide. The video collection is also in a wide variety. Let's not forget about the media center assistants that are very helpful to Mrs. Beale and Mrs. Pickett. They assist the students, staff, and Mrs. Beale and Pickett in any way they can since Specialist are not always able to lend a hand.

While the Media Specialists provide many services to students at FCHS, they cannot always be on hand for each student or faculty problem. To assist the Media Center, students volunteer as helpers throughout the year. These students help Mrs. Pickett and Mrs. Beale by checking out and in books, helping students on the computers and assisting students and faculty in finding books throughout the media center.
