

ART

Art is not an asset, but a necessity to a good school program. It motivates students, provides an outlet for emotions, instills a feeling of success and pride that can only result from creative expression.

Our art program is designed to make students aware of various art techniques and media. Skills are learned which can be improved on or drawn upon in the future. Design is stressed throughout the year so that students will have a sharper awareness of their surroundings and a greater appreciation for art. Artwork is displayed often and students are given every opportunity to enter into competition.

In October, art students visited the annual Crafts Fair at Gatlinburg, Tenn. This Crafts Fair is the largest in the United States.

To raise money for a Ceramics project, students made their own hand-dipped candles.
