

DEDICATION

The staff of the 1952 Greenlight presents this annual in loving and cherished appreciation of our community, whose aid and understanding are paramount in all that its subjects yield forth. We realize that confidence is placed in us to be to our community a permanent monument, and that we should endeavor to devote our lives to the ideals which we have learned by being a part of it. We do appreciate the instinct and love of mankind that our community has given us, and the protecting shield it has offered us. It is our very being, our tool of growth, our pride and joy now and our light in the years to come.
