

PRINCIPAL'S MESSAGE

To The Classes of 1980 and 1981:
This decade will possibly issue one of the most important challenges you will ever receive. The 1980's will probably be the most critical era in American History, a time which will test the character and perseverance of each of you. Your task as graduates of McCrorey-Liston will be to face that challenge with poise and dignity. You should be assertive and positive in your attempt to create a better soci-

ety in which to live, both for yourselves and those who follow.

The instructional, guidance, library, administrative staffs and I have stressed the importance of study, hardwork and positive behavioral attitudes to you. We have done this in an attempt to prepare you to cope with the world and its many problems. The amount of success you achieve will reflex directly to the type of job we have done. Our efforts have been directed purposefully to help you realize the ultimate success for you in your lives.

McCrorey-Liston has a tradition of excellence as exemplified by many young men and ladies who have walked these halls and are now making a contribution to our community and the nation. Your role is to continue to carry high the banner of MLS. Success is a relative term, based solely on hard work.

My wish for you is that you continue to aspire to fulfill your greatest potential and reap some of the rewards which accompany a good and fruitful life. I bid you farewell, as you close this chapter in your life to begin another. Good luck and best wishes to an outstanding group of young men and young ladies.

B. King, IV
