Back in 1944 the S. C. State Board of Education scheduled a twelve-grade program throughout the state. Since we were in the eighth grade at the time, we, the class of 1949, shall be the first class to receive a regular twelfth-grade diploma.

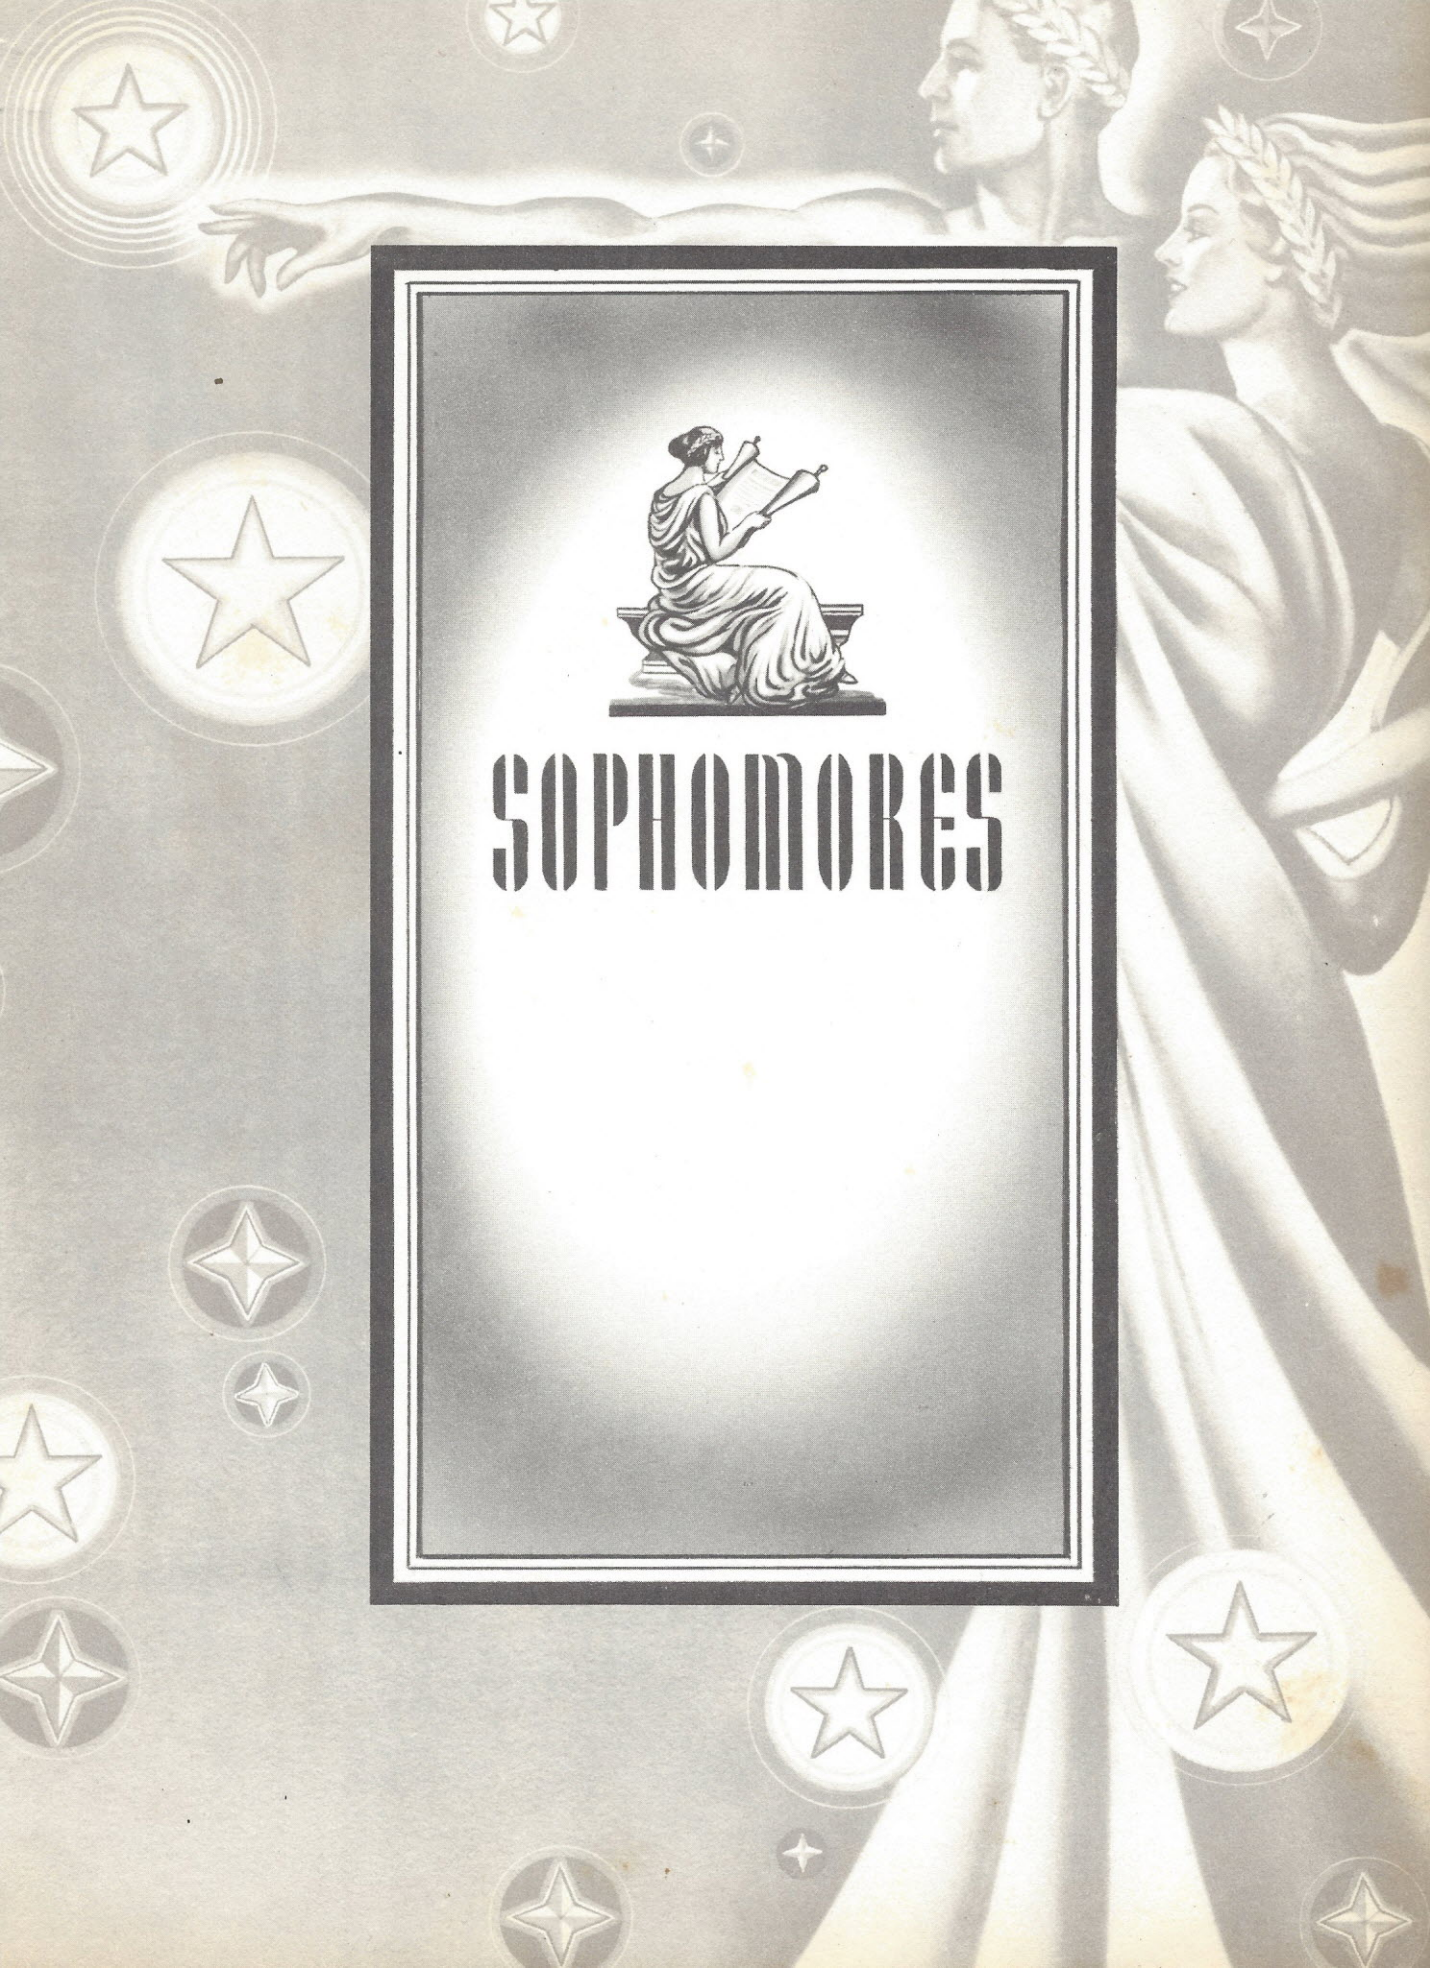

When we first heard the news that we would have to go to school an extra year, we groaned and complained endlessly, but now as we complete eleven years of school work, we are glad that we have before us another year at ole' MZI. We feel that we have another year to continue our studies and to take part in all the activities that mean so much in our school life.

This year we have constantly had one question before us--are we juniors for two years or seniors for two years--but we have definitely decided in favor of being seniors! Along with this being "seniors" twice we have the privilege of being a class of two annuals and two "senior class" plays. We didn't want this year to pass unnoticed just because we did not have a graduating class of the average size. So we are presenting this yearbook to the student body to mark this year of transition. We are all looking forward to a big year in 1948-1949!
