This year has been one of the biggest and most successful years that the Beta Club has ever experienced. The big event of the year was the annual State Convention that was held at the Jefferson Hotel in Columbia.

Our club participated by entering a skit in the talent show and running a candidate for state office.

The skit, which won second place, was entitled "Around the World in Eight Minutes" and it brought down the house.

John Johnson was our candidate for State President. Even though he didn't win the election, we all won through the experience we gained and the friendships we made.
