

MR. THOMAS O. BRUCE

These pictures give only a brief look at our upper school faculty. There is no way to show the hard work that they do while preparing a lesson, or the countless hours that they spend making out references for college. Also, much of their time is spent in worrying about students and talking with parents. They have put much time and energy into making the year 74-75 productive and on behalf of the student body, the annual staff would like to give them many thanks.

MRS. BERRY ARNETTE
