

Students Vie for Trip to Planet PTO

To encourage membership and participation, lower school classes competed for a trip to Planet PTO and a special treat of refreshments. Teacher representation at the board meetings proved to be a major breakthrough in the promotion of teacher-parent communications.

Fund-raising projects consisted of a cookie sale, a square dance, and a family portrait day, with proceeds being used for a new duplicator, a scholarship, and Teacher Appreciation Day. Other services provided by this energetic and dedicated group were a memorial shrubbery plan, concessions at the Halloween Carnival, and gravel for the teacher parking area.

Setting its sights high, the PTO has undertaken the challenge of securing a much needed curtain for the stage in the gymnasium.
