

The Journalism staff of Richard Winn Academy feels that the theme "My Favorite Year" has a special significance, like the award winning movie of the same name. Like a movie, a lot of school considerations are equipment, technicalities, etc. The part of the movie that is truly memorable, though, is the stars — the *people* who make the movie exciting. Like a movie, our yearbook is made up of pictures. In this book, we have tried to capture that same cinema essence.

Just sit back, relax, and prepare to enjoy all our "favorites." We hope you'll like our show.
