

# Class of 1985 Complete the Requirements for Graduation as They Plan for Future

The RWA Class of 1985 has twenty-nine members who are spending their Senior year completing the requirements for graduation and entrance into college. Between taking the SAT, filling out college applications, and visiting college campuses, they have found time to participate in many high school activities.

The Seniors have been models and leaders for younger students in athletics and student government. They have also set the pace academically.

They have worked hard to plan and finance their Senior trip. They have sponsored fund raising projects from fresh fruit sales to suppers and bake sales.

In addition to their own projects, the Seniors have been unselfish in giving of their time and energy to other school needs. They worked hard cleaning up after the tornado and later helping move furniture from one site to another. Who will ever forget the sight of Britt's cattle

trailer loaded with desks?

As these students complete their high school career, they will be remembered for their fun-loving, yet cooperative, spirit and for their many achievements. They will be a tough act to follow.
