

Aerie '85 . . . A Collector's Edition

The 1985 *Aerie* is a collector's edition for many reasons. It is a history of a most unusual year in the life of our school. The yearbook records the hardships we suffered as a result of the tornado, the difficulty of being housed in temporary facilities, and the excitement we experienced moving into our new "aerie."

The yearbook also boasts several "firsts." This is the first annual produced in our new building, and it is our first yearbook to be delivered before the end of school.

It was the goal of this yearbook staff, however, to emphasize continuity rather than change. Certainly our surroundings have changed, but our dedication to excellence in all phases of school life has remained constant, and we continue to build our pride.
