Swiss Lass Comes To RWA

Nathalie Bersier, and 18 year old native of Switzerland, came to Winnsboro in August 1985 as a Rotary Exchange Student. She stayed in the homes of seven different host families, several of which are RWA families. Nathalie was also welcomed as a member of the Richard Winn Class of 1986.

Nathalie's first days at Richard Winn were a little difficult for her because, although she had studied English, it was hard for her to understand "Southern." She soon became accustomed to the language, and began to assist Mrs. Robinson in the French classes and even to teach French to lower school students.

Actually Nathalie is further advanced in school than her peers here. She has already attended two years of college and will finish next year. At home she enjoys hand-painting porcelin, knitting, and horseback riding. She is quite like American teenagers, however. Her favorite pasttime here is watching MTV.
