## *Humor Makes Seniors Unique*

The Class of 1990 involves humor in everything they do. Some teachers say that they joke a little too much. This year they enjoyed joking about the last time they did different things around the school. Even though college applications should have had the seniors in a panic, they decided to have a different approach. Their motto was, "Don't worry. Be happy." By laughing and joking at each project, their senior year flew by. This group of seniors will always be able to smile when they think back on their high school years. Listening to Ray Barrineau and his gang could keep anyone in stitches. Once they came up with a nickname, the jokes were continuous. Nobody could ever laugh their way through school days like the Class of 1990.
