

The Upper School consists of grades six through twelve. Enveloped in this small area is a myriad of activities. There are those anticipating changing classes for the first time, participating in junior varsity and varsity sports, and preparing to take PSAT and SAT; along with those eagerly awaiting a trip with Mrs. Nicholson. Amid all of the excitement of being in the "upper school" is the introduction of biology and dissecting frogs, algebra and quadratic equations, English and term papers. These energetic students stay busy in and out of the classroom and keep everyone inspired with the spirit for life evident in every "nook and cranny" of the Upper School.
