

My Favorite Things . . .

Marie Fain, a student visiting from Indonesia, shows her American pride by displaying our country's flag.

This year, the second graders were asked about a few of their favorite things. When asked who their favorite actor was, the students' responses ranged from Clark Gable to Daffy Duck to Arnold Schwarzenegger. These second graders also agreed by far that math was their favorite subject in school. The most popular foods included ice cream, pizza, and fruit. Their home state pride showed in their support of Carolina, Clemson, and the Citadel. Some of these students also like to support the Redskins, the Miami teams, and the Pittsburgh Steelers. The most popular afterschool activity was definitely sports. These

activities included baseball, basketball, and playing outside. The second graders, already thinking about their future, picked such favorite Carolina colleges as Duke, the Citadel, USC, and Clemson. In the musical division, country sounds pervaded most of the answers. The favorite radio stations were WCOS and "any country stations". Three students included "Achy Breaky" on their list of favorite songs.

Even though they are young, these students have formed the opinions of their favorite things. The choices and favorites of this class will affect their lives for years to come.

SECOND GRADE

One of the favorite P.E. activities is the game "Man from Mars." Will, Jamie, Emily, Mary Beth, Joe, Casey, Bryant, Brett, and Brooks wait for Kent to call out the next color.
