

# Capture the Gold

What is the true meaning of the word gold? One definition of gold could be something valued as the finest of its kind. The metal gold takes many forms — athletic awards are golden — from a little league trophy to the most highly prized Olympic gold medal. Gold is brilliant, eye-catching, and always demands our attention.

At Richard Winn Academy, gold paired with blue represents our school colors. Gold distinguishes us, and we proudly wear it on team uniforms, or just to show school spirit. Our junior year is filled with the anticipation of getting our class rings. Possibly the most special times the students wear gold come with the tassels and cords that represent twelve years of hard work. Gold symbolizes achievement and excellence in all that we do. Our theme for the '94 Aerie, is quite appropriately, "Capture the Gold." Whether it be in academics or athletics, we at RWA strive to "Capture the Gold."
