

Gold is a precious metal of a bright yellow color regarded as having value and brilliance. The gold at RWA comes in several forms. Not only is it important as one of our school colors, but it also symbolizes the top or best performance awarded to our athletes. From the small shiny B-Team trophies given out to rec-

ognize all the participants to larger glittering trophies won by the teams and individual players, the gold "fever" is contagious.

Each athlete strives to represent himself and our school to the best of his ability. This pride shows as the Eagles soar with the goal to CATCH THE GOLD in each athletic event.
