

March began with a bang as the Varsity Girls Basketball Team made a strong run to the State Championship Game. Despite their best efforts, the Lady Eagles fell three points short of becoming State Champions. While basketball finished up, boys' tennis, baseball, softball, and golf were just beginning. Middle School students remained busy preparing for

their music program, which took place on March 21. Mr. Gary Guy gave a wonderful presentation on nuclear energy to Mrs. Renee Allen's science classes. Sandwiched in between were third quarter exams and Stanford Achievement Tests. Luckily for the exhausted students, Spring Break was the last week of March.

WEDNESDAY	THURSDAY	FRIDAY	SATURDAY
