

# 4th GRADE GOES TO CAMP

**WHAT ABOUT WATER ?** In the "What About Water" class, Roe Coleman measures water to show the relationship to the water on earth just how much is useable.

**LIVING WATER.** A web was created to demonstrate how each part of pond life directly affects other parts of pond life.

**MOVING MOUNTAINS.** Fourth graders put together a puzzle which represents the plates that make up the earth's crust.

**WHERE NEXT ?** Everyone relied on the schedule to know where and what was next. Skeet Clarkson and Boyd Brown consult her copy to find the location of the next adventure.
