# Workin' Life

**ROCKIN' AROUND THE CLOCK.** One of Winnsboro's most historic landmarks is the Town Clock. Located in the center of downtown Winnsboro, it is noted for being the oldest continuously running town clock in the United States. With 4 faces that can be seen from all directions, it can also be heard up and down Congress St. as it chimes each hour.

**COURTIN' LIFE.** Renown architect Robert Mills engineered the design of another of Winnsboro's historic sites, the Fairfield County Court House. Located across the street from the Town Clock, it, of course, houses the courtroom as well as the county treasurer's office and other Fairfield County government offices.
