

**WALLY WORLD.** One of many changes in the Winnsboro community over the past year is the addition of a Wal Mart Supercenter located on the By-Pass. Wal Mart opened in Jan. '98 and gave several of our students opportunity to find part-time employment.

**ROCK AROUND THE CLOCK.** Cookies, cookbooks, and other goodies are the featured items at the Aerie's booth. This was the first year of the main street festival with lots of activities and vendors situated around the historic Town Clock.

**TIME OUT FOR A SONIC BREAK.** Frances, Clarke, and Rachelle take a lunch break at the newly opened Sonic to get away from the year-book duties they left behind at RWA. These girls were just a few of the many RWA students who made frequent stops there.

**DO YOU WANT THAT SONIC-SIZED?** Sonic is a popular new fast-food stop located on the 321 By-Pass that opened in the spring of '98. It was an especially busy business feeding all the hungry juniors and their sponsor during Prom Week.

**SHOP TIL YOU DROP.** Along with Wal Mart came a strip shopping center featuring a variety of stores for different shopping experiences. The By-Pass also sported a new look on the south end when the triangle intersection was re-designed and a much needed stop light was added.
