

Richard Winn Academy celebrates its thirty-third year of existence as we close out this millennium. Through the dedication and generosity of its loyal "family", this school endures to mark this momentous time in our community, state, national, and world history. Our 1999 graduates go down in history as being the last of the 1900's, RWA's thirty-first graduating class. We look forward to seeing many RWA grads making their positive marks on our society as we enter into the new millennium. As stated in our Alma Mater, "Love Live Our Academy!" However, as time marches on so we, too, must march on and fondly bid farewell to "Living on the Edge".
