

# SOCCER SUCCESS

## TEAMWORK

The team shows great unity as they make their way to the best record in RWA's soccer history. The players have greatly improved since the start of the soccer program five years ago.

## FANCY FOOTWORK

Junior Paul Atkerson displays his amazing control on the ball. Paul's ability to make defenders miss and his skilled touch on the ball were great assets to the success of the team.

## TAKING CONTROL

Cory Shirley, a junior, collects the ball and heads down the field. Cory's awareness of where his teammates were was a tremendous offensive threat.

## CONCENTRATION

Junior Edward Frazier battles for ball control in the Jeff Davis game. This victory advanced the team to the first round of the State Playoffs.

## MARVIN ON THE MOVE

Forward Marvin Morgan takes charge of the ball in anticipation of his opponent's next move. Marvin's speed, quickness, and talent contributed greatly to the team's overall success.

## HEADS UP

Although a rookie, senior Matt Gilreath brought competitiveness and enthusiasm to the team. Matt proved that soccer is often challenging and rough, full of bumps, bruises, and crashes.
