## A Time To Discover

• BALES OF FUN •

Perched atop several bales of hay, Mrs. Martin and her four year olds make the most of this Kodak moment. Field trips and group activities made the learning environment seem like fun.

**Sittin' Pretty as a Picture:** Abigail sits ready and waiting for her wagon ride through the pumpkin patch. Tons of fun and lots of learning took place on this field trip.

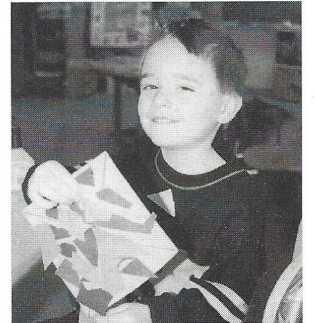

**A Sticky Situation:** Chrissy takes her artwork seriously as she carefully glues bits of colored paper on her kite. Arts and crafts time was a favorite activity.

**Is It My Turn Yet?:** Bratton glances over at the camera as Webb tosses the bean bag toward the target. Playing together and taking turns are life-long skills learned at an early age.

**Party Time:** Holidays provide lots of good opportunities to party. Mrs. Martin's students were always ready to celebrate another happy occasion and eat homemade baked goodies.

**Will It Fly?:** Pierce proudly shows off his finished art project. The coming of spring brought warmer temperatures and gentle breezes, perfect weather for testing his kite.
