

CLASS HISTORY continued...

of 6'3", **Josh Peake** is still two inches taller. Other than his immense stature, Josh is also an outstanding pitcher. He has demonstrated his talents from the time he started out at Drawdy Park to recently when he pitched a perfect game. One of Josh's best friends is **Robert Mason**. Robert also exhibits his great athletic ability. He has been named All Region in basketball in 11th and 12th grades with an honorable mention in 10th grade. Robert was even selected for the All Star basketball team in both 11th and 12th grade. He has also excelled in football by being named All Region in 12th grade with an honorable mention in 11th grade. In our superlatives, he was even selected to be the most athletic guy in our class. The most athletic girl in our class is **Brittany Foster**. Over the years she has participated and excelled in volleyball, basketball, softball, and powderpuff football. One time, when we were all learning how to drive, Brittany, Jeni-Bruce Wilkes, and Meredyth Lyles were taking Driver's Education from Coach Stokes. It was amazing how calm Brittany was, even though she started driving on the wrong side of the road. After this experience, Jeni-Bruce and Meredyth now practice wearing their seat belts. Brittany is also Co-Business Manager of the yearbook staff and has worked alongside the editor, **Rebecca d'Erizans**. Rebecca, or "Becca" as she prefers to be called, has always shown an amazing artistic talent. She has used her abilities to draw and organize bulletin boards around the school. One person who isn't always organized is **Sonya Walters**. One day she came to school wearing two different shoes. Sonya came to Richard Winn last year from Fairfield Central. Another recent addition to our class is **Amy Branham**. Amy decided she was going to skip a grade and she joined our class this year. She is known for her school spirit while cheerleading, and the time she fell off the pyramid and had to miss four weeks of school. Amy is also known for her work at The Children's Center. **Brittni Smith** is one of Amy's fellow employees there. One time in Coach Keel's English class, Brittni fell asleep. When she finally woke up, the room was completely empty and everyone was outside looking at her through a window and laughing. Brittni kept her cool and didn't get mad. Maybe that's the reason she was voted the friendliest person in our superlatives. One of Brittni's friends is Meredyth Lyles. Meredyth is famous for once beating Mrs. Harvey Brown at an arm wrestling contest. She is also known for her great plans for the future. Meredyth has always told us that she is going to marry rich. **Zac Branham** is also planning for his future by joining the Navy. Zac is known for his love of soccer team. When Zac has something to say, he doesn't hesitate to let it out. In contrast **Jamie Webb** only speaks his mind only when he feels it's necessary. Jamie is known for having a mustache since the first grade and

for his hunting skills. He always has a squirrel tail or two in his truck. Jamie lives in Ridgeway, which is a long commute to school compared to most of us. **Joe Hodges** also has a long commute from Blair. Joe is known for his carefree attitude. He once said, "Don't worry guys. It's just a grade." As carefree as he is, Joe demonstrated his intensity whenever he played football. This past year during lunch, Joe, Brooks, Casey, John Sanders, and myself generally ate together. Joe always thought it necessary to eat at the Roadrunner even though most of the time he brought his own lunch. **John Sanders** has had his own experience with the Roadrunner. Last year during football camp, John ate one of Gene Kelly's famous hamburgers, became sick, and had to go to the hospital because of dehydration. John came to Richard Winn last year from Pennsylvania. Not many of us thought much of that "northerner" that couldn't handle the Roadrunner, but then we found out he was originally from Blackstock. John is usually shooting pool, making money off the stock market, or working at Winnsboro Pizza. He is one of my employees at Winnsboro Pizza as I am the Assistant Manager. In conclusion, our time at Richard Winn has been like cement, binding us all together. We have seen our share of good times and bad, and we are sure to see those times again in the future. I would just like to remind you that no matter where we move, what job we have, what dreams we follow, or what misfortunes come upon us, our memories will remain unchanged. This chapter of our lives is at an end, but we can always go back and read over it.
