What does being part of the basketball team teach you?

Lewis Frazier

"It taught me teamwork."

Brittani Cook

"It teaches you how to work with other people and be a team player. You stick with it even when things are hard. Also it teaches self respect for others on the team."

Lisa Daffern

"Being part of the basketball team taught me a lot of lessons. It taught me teamwork and sacrifice for the most part. I came to a new school, playing with girls I didn't even know, but we pulled together and made a basketball team out of each other. It was a great year."
