

# Academic Banquet

## It Pays to Be a Know-It-All

Students convened in the Richard Winn auditorium August 21, 2008 to receive awards from the previous school year. Before accepting the awards, the students listened to the opening speech given by Richard Winn alumnus, Josh Allen. Josh emphasized major points to becoming a successful student: determining a passion, going after what one wants, setting high

standards to achieve one's goal, and having perseverance. Josh stressed that in order to control their future, the students must be prepared to sacrifice their time. Only then will they be able to enjoy a lifetime of success. After giving this advice to his audience, he departed with the memorable quote of Winston Churchill, "Never, never, never give up."

1. Alumnus Josh Allen addresses award recipients.
