

Winter '08

Winter Break is a two-week period for students to celebrate the Christmas and New Year's holidays. It is also a time to unwind after completing the first semester and can be spent lots of ways. Whether it's traveling or participating in family traditions, all students are grateful to have time away from class. Chelsea Crouch, Julia Moser, and Blake Little traveled to Orlando, Florida to

participate in the UCA All-star parade. While there, they were able to enjoy time at Disney. "My favorite part was riding the Rock N' Roll rollercoaster, because it was my first rollercoaster," says Julia. Lauren Pendergrass vacationed with family in Myrtle Beach over her break. "It was 85 degrees in December. It was great." While some traveled, most stayed home and created memories with friends and

family. Junior Haleigh Williford hosted a New Year's Party, where everyone shot fireworks and brought in the New Year together. "Our party was fun, it was nice to have a release from school and hang out with friends." It's evident that this break was spent a many of different ways, but what all students had in common was that they were certain to make the most of their Winter Break.
