Giving students new opportunities to le material beyond the books, teachers administration got together and came up with idea of daily enrichment classes. Bumping beginning of the school day earlier, making e class just a little bit shorter, and cutting a minutes off of lunch and break, there wa seventh period created in which enrichm classes would be held. Classes offered w diverse and offered things such as wood work building club, art, Latin dance, archery, robotics. There was truly a class that met interests of every student.

1. Sophomores Ashley Surrat and Whitney Able look through old yearbooks together during study hall. 2. The seventh graders are serious about their flag football during sporting games enrichment class. 3. Owens shows Perry Anne Robinson the techniques of drawing in art class and helps her with her draw 4. Seventh grader Caleb Truesdale presents his creation, a wheeled machine, in robotics class. 5. During final pep rally of the school year, the Latin dance class displays their moves and weeks of hard work. 6. Z Bowens is busy pumping some iron to stay in shape in weight lifting class. 7. While caught up in a ser game, Mrs. Padgett teaches Maddie Denton and Crystal Liu the right ways to win a chess match during ch club.

Moving to the Beat! Cassidy Branham and Whitney Able show off their own dancing skills. The girls in the Latin Dance class worked hard to perfect this dance.

Level Up! Brian Steed and Zelick Levy work hard to finish a project. The wood working class constructed many useful things around the school this year.

If at First You Don't Succeed... Noah Ward helps Lily Baggott learn how to tie shoe laces. A unique detail about Richard Winn, many upper school students got the opportunity to work with lower school students and build relationships, something that doesn't happen at bigger schools.

Ready, Aim, Fire! Sop Jessica McCullar aims for the targ prepares to shoot her bow. Arch a much anticipated class this ye very popular with the students.
