

Teachers and staff love **SPRING** time as much as students, even though the work load never lets up. Seemingly the mood-lifting warm sunshine and a week of spring break do wonders to inspire and give a second-wind to finish the year strong. **SPRING** means winding down the school year and the beginnings of planning another school year ahead. It means curriculum meetings, practicing for end-of-the-year music programs, recording grades, and filling out transcripts.

**SPRING** also means shedding those heavy coats, sweaters, scarves, and boots and replacing them with short sleeves, shorts, sandals, and flip flops. But best of all, it means summer vacation is just around the corner. That is always a welcome change!
