

Spring

For most students, spring time means the school year is winding down, but it certainly does not mean a lack of good times. If anything, the arrival of spring meant even more buzz and excitement with the talent show taking place, baseball and softball at the peak of their seasons, and elementary end-of-the-year programs taking place. Then there is the athletic banquet to wind down the sports seasons, Prom as a final celebration of the year, Field Day to let loose all the energy from sitting in a classroom for a year, and lastly, Lower School Awards, Baccalaureate, and Graduation to recognize all the hard work the students do while at school. It's safe to say, spring is a busy but fun time!
