The Future Business Leaders of America has had a very interesting year. They had a membership of 54 students.

The club had monthly meetings at which they had guest speakers to present various subjects. Two social meetings were held during the year with refreshments served.

One project sponsored by the club was providing the teachers with an assistant. Members of the F. B. L. A. served as these assistants and helped type for the teachers.

"Business Education Day" was observed by the club on April 18, 1961. The club visited various businesses and the University of South Carolina in Columbia. The purpose of this event was to help some of the members in making a decision for their future work or education.

Overall, the F. B. L. A. had a very progressive year in the new Winsboro High School.
