

FOREWORD

The school spirit experienced by the graduating class of 1964 during its four short years at Winnsboro High School has been an inspiration and a joy that has helped make that period one of happiness, ambition, and achievement. Through the pages of this, the fourth volume of the Halcyon, the annual staff has tried to reflect this loyalty and enthusiasm which has contributed so much to the success of the educational and personal development of each student.

It is hoped that this book will be one of pride and pleasure to us now, and in the future will serve as a reminder of the friendships, ideals, and opportunities made possible by our association with Winnsboro High School.
