

# Bus Drivers

The bus drivers at Winnsobro High School have the most important and responsible duties of any group of students here. They are responsible for safely transporting about 70% of the Fairfield County school children from their homes to their schools and back home again. They also drive the Vocational Center students and the Fairfield Junior High Pre-Vocation students to and from their classes. When groups go on extra-curricula trips to neighboring cities and counties, our drivers take them. We are proud of the fine record of these young men and women and their dedication to our safety and welfare while riding the school buses.
