

## Gone But Not Forgotten

The years spent in high school are some of the most confusing times in a person's life because of the decisions with which one is faced. Class ranks, SAT scores, papers to be written, and the social aspect of school can be quite mind-boggling. However, some of the things that make high school very important in everyone's life are the good times of Wildcat victories, prom, shows, homecoming week, and even the daily lunch period filled with sharing, caring, and laughter. As the lives of the Wildcat graduates go on, the memories remain in their hearts forever.

While the last days of the 1985-86 year went by we cherished each moment together. Reflecting on these great moments is what "Gone But Not Forgotten" is all about.
