

# Principal, Lemuel C. Stephens

This is a time long to be remembered by those who are the LAST OF THE FIGHTING WILDCATS. Born in 1960, the "CATS" had a long and glorious reign. The memories will be fresh even when the body is old and worn with years. Many will rue the demise of the tradition of Winnsboro High School. Some bitterness will never fade at her closing. However, I urge you to be proud to have been a part of her legend — and be proud that her departure marks the beginning of the most significant educational event in Fairfiels County history — equality for ALL high school students in the county.

The quality of the educational opportunities improves each day, and as more parents and "significant others" become more involved in the educational process, we shall soon reach the pinnacle of excellence.

I am delighted to be a part of your lives, and I truly hope I have in some way, been a positive influence. Remember always that I care about what you do, what you say, and how you conduct your lives.

Best wishes,
