Dear Friends:

Thank you for your Christmas card and for your expression of sympathy over my husband's death.

I noted your inquiry about his line of ancestry back to Andreas Killian, and marked your card as one to be replied to. I have just looked up my old list and typed a copy for you, which I was glad to do.

I have added the names of our children and grandchildren. Not that I imagine you are trying to keep a record of any generations later than your own except in your own branch. I only thought they might be of passing interest. You may remember our daughter Margaret who visited North Carolina with us in 1952. George is the son who lives here in Rochester only a half mile from me. The oldest son and his family live in Houston, Texas. There are now 45 greatgrandchildren of Cletus's father James, Generation 6. Only one sister and one brother of Cletus's are still living, both in Missouri. They visited us here in 1961. My daughter Margaret lives in Brooklyn N.Y. They visited us here in 1960 and last November they spent a week with me.

Best wishes to you for the new year.

Sincerely,

Leta Wray Killian
