Personal

Dear Guy:

Here are the photostats at last; we had to wait for some new paper. Glad to have the stuff myself. Please send me one of the mooks and also whatever you come up with that's new. I'll also appreciate names of those who are working on the genealogy, especially those who have publications even tho on;y mimeographed.

I found out the Elmer Faris and his wife Reola arrived at Landsford just after we left. Too bad we missed them. I've encouraged them to have a Mary Killian family reunion in August, and if not this year I'll push it for 1964. His wife was to have an operation the next day; people said she looked and talked well despite evidence to the contrary.

I enjoyed meeting the Reids. Planned to call them up that next week-end but David and I didn't get back down thru Charlotte after I went to my ophthalmologist up at Bowman Gray medical school. But we will soon, and will call them.

I told you we'd stop off too, and we will, but now I don't know when. Maybe Dave and I will take a trip to see Kings Mountain or someplace such as that and drop by. Or maybe N dine and I will take a week-end off and come by to take you out to dinner as we head from the mts.

Meanwhile I would appreciate a little chart on your Killian branch. And how many kids did you have? I'm ashamed but I can't recall many of these points.

Also could you tell me who was Steel or Steele Killian or Steele Jarrett? I asked you this once before, but have forgotten the facts. Mother and I planned to visit them last fall or this spring.

Regards to your family, and if you can happen down this way let us hear so we can invite you by.

Cordially
