Dear Kate,

I am writing to Florence today, inclosing the sentences which do have an error, according to the copy she sent me. When, and if, she sends me a clarification I will send it on to you.

I have been a practical invalid since the operation several years ago for removal of a malignant

tumor from colour. I'd
in pain all the time!
Stokes is at home with me.
Go at Clemson and
Susan in N. J. She has
just had a nasty fall on
ice - a week ago suffering
a broken right arm.

The cold weather is hard
on me - living as I do
in a big old rambling
house.

I do hope your cousin
succeeds in getting
her family histories.
I was enthusiastic

about tracing some - until
I got sick. I would like
so much to have it for
my only grandchild -
Susan's daughter.

I was so glad to hear
from you - have thought
of you often. If you
have time, write me
again.

Best love from
Doris B. S.

Dear Ole,

I am enclosing the letter that I had from Susie Bell Strubling on Feb 9th. If I hear anything else - I'll write you.

She is a sweet girl. I am sorry that she has to suffer.

When she wrote me in 1960, she was suffering from arthritis.

I hope that you have missed the flu. I am trying to steer clear of it.

Love from

Nate D. Bankhead.

Susie's grandmother
and Orville's grandmother
were first cousins.
