I am a Volunteer in the Tulsa Library System, Genealogy area.

Recently, I reviewed a book, Local and Family History in SC -
A bibliography by Richard N. Cote. On page 222, reference was
made: Bratton Family, a special collection of materials.

I have a direct family tie to the Bratton family of NC/SC areas
and thought perhaps that this collection might contain data on
some of my family members. Could you advise me how much material
is included in this collection and whether you participate in any
type of loan system, such as the Inter-Library Loan System? If not,
could some one at your location advise me the size of the collect-
ion, *generally what material is included and whether copies of
selected data could be provided (and the cost per copy).

Your assistance will be greatly appreciated.
