Attachments: Cockrells in South Carolina.xlsx

Thanks Bill. FYI Eddie.

Bill please copy your cousins.

The census is rarely complete. And with the 1790 census, it was burned by the British in the War of 1812.

So tax rolls have been assembled to serve as a substitute for the census.

But they are what we have.

If you count Cockrell and Cottrell as possible spelling variations, then there are 7 Cockrells and 1 Cottrell in SC in 1790

Four in Fairfield County and four in Chester County. And possibly living close to each other on opposite sides of the county border.

The 1790 census only tells you how many males are over 16 years of age, and how many males are under 16 years of age. Plus total females

If the Thomas you mention was born in 1750, he was likely married and having children by 1790.

Fairfield County, SC has a Thomas Cockrell whose household has two males over 16 and two males under 16.

Chester County, SC has a Thomas Cockrell whose household has one male over 16 (Thomas himself) and zero males under 16.

So the Fairfield County, SC Thomas may be the older of the two.

I suspect, but can not prove that Joseph Cockrell born in 1774 might be the son over age 16 in the Fairfield County Thomas household.

This Joseph moves to Greene Co. AL in about 1825. He appears to name his oldest son John in 1799 and his second son Thomas in 1801.

That may offer a red flag on whether he Joseph is a son of a Thomas or the son of a John.

But there is only one John Cockrell in SC in the 1790 census. Husband of Martha. He leaves a will in SC in 1798 and names four sons:

William, Moses, Sanford and Elias. No Joseph among them.

So 1774 Joseph might have named his oldest son John in honor of someone other than his father.

When Joseph leaves an AL will in 1852 he names sons: Joseph, John, Sanford, Jeremiah, Moses and Thomas (not in age order)

Sons Joseph and Moses had already died before their father wrote his will in 1852, which was probated in 1853. They both had heirs.

Sons John, Sanford, Jeremiah and Thomas are given names for Cockrell males who lived in Greene Co. AL in 1850. So the entire family

unit may well have moved from SC to AL in about 1825, when the 1850 census records show SC births slowing down, and AL births picking up in the state of birth column in that census.

What we really need is a SC will for the older Thomas (potential father of Joseph b 1774). To see if he left a will and if it names his children.

If older Thomas was born in 1750, then he would have been 75 years old in 1825 when the family moves. I wonder if his death, and related estate settlement triggered the move to richer land. If the Prince William County, VA Cockrells moved to SC in 1760; they would have been there 65 years; at the time this branch moved on to AL in about 1825. So older Thomas might have moved from VA to SC at age 10; and then after a life well spent, died in SC in 1825; at which point some of his children moved on.

Eddie can tell us if there is a will, probate, estate deeds for older Thomas in about 1825. On either side of the Fairfield/Chester Co. SC line.

I have copied an excel file saved on a mac.

It is probably tedious to sort through, but if you can open it, focus on the first tab only and on rows 1-30 and columns A-Q

It gives you a good overview of the 8 family units of Cockrells living in SC in 1790.

Further right on this tab are the Cockrells who continued to live in SC through 1850.

The second tab has the Cockrells living in AL from 1830-1850. There are two branches of Cockrells in Greene Co. AL in 1850

One from NC arriving in AL in about 1800, and your line from SC arriving in AL in about 1825. Joseph and his sons are on that second tab.

The Cockrells of NC origin, and the Cockrells of SC origin are in separate columns using the 1850 census state of birth as a guide.

If we can find a living heir from this 1850 census list for BOTH the Cockrells who stayed in SC and the SC Cockrells who moved to AL;

and if their Y Chromosomes match. Then we have evidence of where the AL Cockrells might have come from.

If we can also match that to the signature Y chromosome pattern of the Prince William Co. VA Cockrells, then we have an earlier migration stop for your line; and the point where it intersects with my Cockrell line.

The first surviving record for a Cockrell in Prince William County VA is in 1739; so they had arrived there by then.

Then both your line and my line have to dig out where they came from prior to 1739.

We will likely be searching for a Thomas Cockrell and a William Cockrell born about 1700; and marrying about 1720. As we look for them in a prior location. I suspect we will find them in VA or NC; if we find them in surviving records at all.

Subject: RE: 1850 Cockrells

I do not know the birth date of Thomas or Agnes. However, apparently, because of land deeds to her children and subsequent sales of these parcels later, I believe Agnes passed away about 1812. Their farm was about 800 acres, large for the time and it was located in south central Chester County on both sides of Hughey's Creek, now called the Little Sandy River just west of the present community of Cornwell. Her husband John Liles died in 1790 but after the census, likely late in the year as his estate was probated in January 1791. They had male children, Samuel (my 4th Great Grandfather) who was born in 1779, James, John Jr., Zapaniah, and daughters Elizabeth, and Mourning who both married Trussells. There were a couple of other children in the household in the 1790 census whose names and relationships I do not know. So that like puts Agnes' birthdate 1750/1760 and if Thomas was indeed her brother, likely sometime in that time frame also. There were several Cockrells in that same part of Chester County. They all lived very close together. One married a Hughey, which is close to my Liles and another a Colvin which is also very close to my Liles lands. These Cockrells are said to have come from Virginia. According to James Madison Trussell's papers, his mother Elisabeth Liles Trussell was related to the Prices of Chester County. I think they must have married into the Cockrell family as I find no trace of them on my Liles side. The Price's were large land owners and also are related to Charlie Liles' line.

Subject: Re: 1850 Cockrells

Bill,

I have several Cockrell angles I am pursuing at the same time.

So sometimes I forget what I already have. Apologies for that if I am asking below for something you have already sent.

What is the vintage of Agnes and Thomas? When and where were they born?

Here is why I ask.

I am presently trying to identify and group all Cockrells in America prior to 1750; but only for colonies south of New York.

So Pennsylvania and New Jersey south, prior to 1750. This will ignore NY and New England Cockrells.

Your SC line interests me for more reasons than the above goal. I think it may be the same line that fathered my Phaniel Davis (or his father more exactly).

Phaniel's father is not known, but would have been born in about 1755, and Phaniel then in 1785. I believe this may have happened in Prince William County, VA. Even though Phaniel's father was biologically a Cockrell, Phaniel's father appears to have taken the Davis surname. Could relate to an adoption, unwed mother, or adultery. Don't know.

So, if we can trace The South Carolina Cockrells down to living heirs today. And find a straight line of males, with the living male heir today still carrying the Cockrell surname AND Y Chromosome; then we can attempt to match their Y Chromosome DNA to the samples we have from Prince William Co. VA Cockrells who either stayed in that county, or who moved west when your line moved east.

I would like to start with your closest Cockrell connection, and move forward in time. As that makes the project fun/interesting for you as well. As it is possible that it will give you earlier branches of your tree.

Thanks again for the help, and the interest in your family history.

Gentleman,

Your request is now number 22 of 28 remaining request, not including walk-ins that we handle immediately.

Thanks for your patience with us, we are supplied by volunteer staff.

We would love to provide our services at no cost and hope to one day be able to provide this service. However, at this time we are totally supported by volunteers and donations. On our membership application you will see we provide a multiple of research tools and supplies for researchers. We are a 501-C3 society and all donations are tax deductible. Normally, we encourage researchers to become members of our chapter (see website). Members receive free research and free paper copies for their membership year. We normally charge \$15 per request (3 hours) and \$.10 per copies.

For our records would you please share any information you have updated on your family lines. The information will be filed and made available in our family files. This will expedite future request for research.

You all have done this, the information is very informative and has been placed in our family file records.

Please let us know if you need any further assistance.
